NATIVE AMERICAN ASSOCIATION.

Preamble and Constitution of the Native American Association of the United States.

Whereas it is an admitted fact that all Governments are not only capable, but bound by all the principles of national preservation, to govern their affairs by the agen-cy of their own citizens: and we believe the republican form of our Government to be an object of fear and dis like to the advocates of monarchy in Europe, and for that reason, if for none other, in order to preserve our institu-tions pure and unpolluted, we are imperatively called upon to administer our peculiar system free of all foreign influence and interference. By admitting the stranger influence and interference. By admitting the stranger indiscriminately to the exercise of those high attributet which constitute the rights of the native born Ameriban citizen, we weaken the attachment of the native, and gain citizen, we weaken the attachment of the foreigner. The naught but the sordid allegiance of the foreigner. The rights of the American, which he holds under the Constitution of the Revolution, and exercised by him as the glo-ious prerogative of his birth, are calculated to stimulate o action, condense to strength, and cement in sentiment and patriotic sympathy.

Basing, then, the right and duty to confederate on these high truths, we profess no other object than the promotion our native country in all the walks of private honor, public credit, and national independence; and therefore we maintain the right, in its most extended form, of the native born American, and he only, to exercise the various duties incident to the ramifications of the laws, executive, legislative, or ministerial, from the highest to the lowest post of the Government; and to obtain this great end, we shall advocate the entire repeal of the naturaliza-tion law by Congress. Aware that the Constitution for-bids, and even if it did not, we have no wish to establish ex post facto laws; the action we seek with regard to the laws of naturalization, is intended to act in a prospective character. We shall advocate equal liberty to all who were born equally free; to be so born, constitutes, when connected with moral qualities, in our minds, the aristocracy of human nature. Acting under these generic principles, we further hold that, to be a permanent people, we must be a united one, bound together by sympathies, the result of a common political origin; and to be national, we must cherish the native American sentiment, to the entire and radical exclusion of foreign opinions and doctrines introduced by foreign paupers and European political adventurers. From Kings our gallant forefathers won their liberties—the slaves of Kings shall not win them back

Religiously entertaining these sentiments, we as so lemnly believe that the day has arrived, when the Americans should unite as brothers to sustain the strength and cans should unite as prothers to sustain the strength and purity of their political institutions. We have reached that critical period foreseen and prophesied by some of the clear-sighted apostles of freedom, when danger threatens from every ship that floats on the ocean to our shores; when every snip that holds on the ocean to our stores; when every wind that blows wafts the ragged paupers to our cities, bearing in their own persons and characters the elements of degradation and disorder. To prevent these evils, we are now called upon to unite our energies. To fight over this great moral revolution, the shadow of our first revolt of glory, will be the duty of the sons of those wars, and we must go into the combat determined to abide by our country; to preserve her honor free from contagion, and her character, as a separate people, high and above the engraftment of monarchical despotisms.

ARTICLES OF THE CONSTITUTION.

First. We bind ourselves to co-operate, by all lawfu neans, with our fellow native citizens in the United States to procure a repeal of the naturalization law. We will use all proper and reasonable exer tions to exclude foreigners from enjoying the emoluments or honors of office, whether under the General or State

Third. That we will not hold him guiltless of his coun-'s wrong who, having the po in office while there is a competent native willing to accept

Fourth. That we will not, in any form or manner, con-

nect ourselves with the general or local politics of the country, nor aid, nor be the means of aiding, the cause of any politician or party whatsoever, but will ex-clusively advocate, stand to, and be a separate and andependent party of native Americans, for the cause of the country, and upon the principles as set forth in the bove preamble and these articles. Fifth. That we will not, in any manner whatever, con-

nect ourselves, or be connected, with any religious sect or denomination: leaving every creed to its own strength, and every man untrammelled in his own faith; adhering, ourselves, to the sole cause of the natives, the tablishment of a national character, and the perpetuity of our institutions, through the means of our own country

Sixth. That this Association shall be connected with and form a part of such other societies throughout the United States as may now or hereafter be established on the principles of our political creed.

Seventh. That this Association shall be styled the

"Native American Association of the United States." Eighth. That the officers shall consist of a President. Vice President, Council of Three, Corresponding Secretary, Recording Secretary, a Committee on Addresses to consist of three members, a Treasurer, and such others as may be required under any by-laws hereafter adopted, ose duties shall be therein defined.

Ninth. That all the foregoing officers shall be elected by this meeting, to serve for one year, except the Committee on Addresses, which shall be appointed by the

Tenth. That the President, or, in his absence, the Vice President, or, in the absence of both, the Corresponding or Recording Secretary, is authorized to convene a meeting of this Association whenever it may be deemed ne

THE NEW YORK Life Insurance and Trust Cmpany has a capital subscribed of one million o lollars, but in consequence of being the depository of the Court of Chancery, and of the Surrowgate Courts of the State of New York, as well as of individuals, the business means have increased to upwards of five mil

the dustness means have increased to upwards of the millions of dollars, as appears by a report of the Master in Dhancery, dated 23d of May, 1835.

To persons in public employment, who receive fixed salaries, an Institution like this affords a certain mode of securing a sufficient sum for their families at a future day; and if the object of a parent, besides that of merely making a living, is to accumulate something for the support and education of those who may be left behind, it can be real ized in this way, without exhausting those energies of mind and person which are usually necessary through the ordinary struggles of life.

A person aged 30 years, whose income is \$1,000 per annum, may, by the appropriation of \$118 a year, secure to his children \$5,000, even if he should die the next day. A husband 30 years old, may provide \$500 for his wife by paying annually the small amount of \$11 80. At 45 ears old, a clerk may create a saving fund of \$1,000, for the payment of his debts, by the annual premium of \$37.30. At 60, the same amount may be secured during

a period of seven years, for the yearly payment of \$49 10.

In the minor offices of the public service, experience has shown that the salaries are not sufficient to enable the December 13, 1837.

It is respectfully made known that merchandise or other commodities received at this Depot, for delivery in this city, or to be forwarded to Baltimore, or to points on the line of the road, will hereafter be subject to the following regulations, of which those interested will please take notice:

1st. The freight and charges on all roads are not sufficient to enable the incumbents to lay up any thing, even for the infirmities of age, much less for the maintenance of those who survive. The labors of thirty years, are, therefore, productive of only the support of the day, and there are many sens tive and anxious hearts who live for the happiness of their families, that are harrassed for years by the dreadful apprehensions of future want.

apprehensions of future want.

For such, a Life Insurance Company holds out relief gives reality to hope, and, by the small economy of a few

dollars per month, puts the mind at ease, and affords the means of securing it for others.

The preliminaries for effecting Insurances are very simple, being merely a declaration of age, health, and other particulars set out in the forms of the office, together with a statement of the physician and friend of the applicant upon some of the same points, the blanks for which will be furnished by the agent in Washington city

As the design of the company is profit on 'he one side and protection to the other, and its means ar d system are directed to that end, it only requires a reciprocity of good faith, to produce the mutual result of strength to itself and security to its customers

Officers in the Navy will also be Insured, either for shore or sea duty; the latter service, however, being with an additional premium, which will depend upon the lati-

tude and climate of the voyage.

Insurance will be made for one year, or any period within seven years, or for life, the premium varying, in either case, according to the term. The risk of the company will commence with the date of the policy; but no Insurance will be considered valid until the policy is delivered to the insured. PROPOSALS

For publishing in the city of Washington a weekly news paper, e be devoted to the interests of RELIGION and LITERATURE, to be called

THE METROPOLITAN CHURCHMA

REV. PHILIP SLAUGHTER, EDITOR. WHEN a Minister of the Lord Jesus Christ ceases to the Church and the world requires that he should declare the causes which impel him to take this step. In the present case the Editor was arrested in his ministerial functions by the hand of disease, and his voice hushed by the precept of the physician. He is driven, therefore, we have no imperious pecessity to do something for the sup-

functions by the hand of disease, and his voice hushed by the precept of the physician. He is driven, therefore, by an imperious necessity to do something for the support of his family. Shall he go back to the world and resume his secular pursuits? Most secular occupations would be as incompatible with the state of his health, as revolting to his feelings and principles.

The only alternative, then, is to adopt that mode life which is most kindred to his profession, and which, next to the living voice of the preacher, seems to be the most fitting instrument to promote the glory of God, and the happiness of his creatures. In his judgment a religious press is that instrument—the press being confessed by one of the mightiest levers that moves this moral world. He has chosen Washington as the locality of this press for various reasons. It is a centre from whence roads and canals radiate to every point in our extensive territory, affording opportunities of easy and speedy communication with every diocesse in the Union. 2dly, as the political metropolis of this great Nation, it is the source of mighty moral influences for evil or for good. Every interest in the country is beginning to appreciate the importance of this fact. Every interest in the country is beginning to appreciate the importance of this fact. Newspapers, magazines, and the phiets, expression every variety of epidos, in political metropolis of this great Nation, fixing the principles, and more ding the manners of its citizens. Under these circumstances he has thought that the Episcopalians of the United States would like to see a press established at this great centre of moral influences, displaying the ensigns of the Gospel, and inscribed with the motto of that Church which was built upon the foundations of the Apostles and Prophets, was cemented with the blood of a glori foundations of the Apostles and Prophets, was cemented with the blood of a glorious army of martyrs, and which

with the blood of a glorious army of martyrs, and which says to the angry surges of error, which are beating against her bulwarks, and battering down the walls of other societies, 'here shall thy proud waves be stoyed.'

The general design of this paper will be the advancement of society in knowledge and religion; and to this end, the aid of various gentlemen, distinguished in the walks of literature as in the walls of the Church, has been secured.

As to the peculiar view of the Editor in Religion, it is enough to say that he is a Minister of the Episcopal Church, and that it will be his continual aim to maintain that Church in her integrity, to exhibit, illustrate, and defend her distinctive features, and to hand her down to our children inviolate, as we received her from our fathers.

AYNE'S INDIAN EXPECTORANT, is recommended as decidedly superior to any other known combination of medicine, for Coughs, Colds, Influenza, Consumption, Asthma, Spitting of Blood, Angima Pectoris—Palpitations of the Heart, Bronchitis—Chronic Pleurisy, Hoarseness, Difficulty of Breathing, Hoeping, Cough, Pains and Weakness of the Breast, and all dis-

eases of the Pulmonary Organs.

This medicine is highly and justly recommended, by numerous and respectable individuals, who have found relief from its use. Many who have been laboring under protracted coughs and pains in the breast, and have been upposed by themselves and their friends far advanced in consumption, have been happily restored to perfect health

y the use of this valuable Expectorant.
Dr. JONATHAN GOING, President of the Granville Col. lege, Ohio, (late of New York,) in a letter to the proprietor, dated New York, December, 1836, says—"he was laboring under a severe cold, cough and hoarseness. 2d that his difficulty of breathing was so great that he felt imself in imminent danger of immediate suffication, but was perfectly cured by using this Expectorant." Mrs-Delks, of Salem, N. J., was cured of Asthma of twenty years' standing, by using two bottles of this medicine. Mrs. Ward, also of Salem, was cured of the same complaint by one bottle. A young lady, also of Salem, who was believed by her friends to be far gone with consumption, was periectly restored by three bottles. Dr. Hamilton, of St. James, South Carolina, was greatly affected by a cough, hoarseness and soreness of the lungs, and on using bottle of this medicine found permanent relief. s might In addition to the above, several hundred case Cough be mentioned of its promptly curing Hooping when every other treatment had failed in giving relief.

THE HAIR! THE HAIR!

The greatest ornament to the human body is a splendid head of hair. It has recently been discovered that the genuine Buffalo's Oil is a soyreign remedy for baidness, prevents the hair from coming off, promotes the growth, continues the luxuriance, and improves the beauty. It is far superior to any other animal or wegetable oil, and in case of fever, where the hair becomes dry and begins to fall oil, there is no application more effectual in restoring its beauty and rendering it in a healthy state.

It is put up at a low price, (37-2 cents) that all classes can have access to it. None genuine unless put pressed in the glass. Also, to prevent imposition, it will be signed by the Brown, 481 Washington, corner of on.
